Career Objective

My career objective is to make a living in the computer science field. I have experience in many technology related areas, including building and repairing computers, networking, and web design, as well as troubleshooting different kinds of problems. However after going to school for programming, I would like to pursue a career as a software developer.

Education

- Exeter High School, Exeter, NH 2002-2006
- Seacoast School of Technology, Exeter, NH 2004-2006
